DOBSON ARRIVES TO TAKE UP REAL WORK

First Athletic Director of Richmond College Arrives, and Talks of Plans for Making Spiders Real Contenders in Southern Athletics-Football Men to Report in August.

Roanoke, Va., June 25 .- With Harry

Colts had little trouble shutting out the Tigers in the final game. A heavy ain before the game made the field

heavy, and it looked like it would be

impossible to play, but at the regular time for calling the game the field was

in fair shape, and the Colts found the

heavy going to their liking.

Griffin did not allow a hit in the six innings, while Tolson allowed four, together with lots of free passes and hit batsmen, which enabled the Colts to score. LaFitte's error in the fourth cost three runs, and Spy's muff of a line drive to first allowed the Colts to score their first run. In the seventh inning a heavy rain, together with darkness, necessitated the calling of the game.

Frank M. Dobson, who will direct all branches of athletics at Richmond College beginning with the next college var up September, arrived here yesterday, and has already made arrangements for establishing his home in his has ever looked in his life, certainly better than at any time since he became known to local fans as a member of the Richmond team. With nim came Mrs. Dobson, and both are more than pleased at being once again able to make this city their home.

In speaking of his work in connection with the college, Dobson said: "It selice that it is no trifling job, this thing of whipping winning teams into shape, and while I selected Richmond College over a number of offers that were made me, I came to my conclusion rather upon what the future has in store for this great school than for what can be accomplished in one short was an an early in August. 'It is obvious that I believe I can turn out a winner in all branches of athleties—that is, a winner for Richmond College—or I evolud never have signed a contract. Some of my prevalude in the preliminary work, such as instructing them in the basic principles of the game, can be accomplished that there was no one directing head of look after everything. I am assured that everybody connected with the college will co-operate to help put athletics on the plane that the bigness of the school merits. If this is true, while I am in no position to make positive promises right now, I believe that we'll be a success of any sort of business, from footaling at the complete the complete and the complete the complete and the complete that they are accomplishing successful athletic organizations, uplease he is given the opportunity to discover the punch of the school.
